JIGSAW 350W

You want to saw straight lines as well as curves? You want to efficiently manage the small sawing jobs and work out very accurately interior elements? Then have a look at this compact 350W jigsaw of Powerplus.

Its adjustable base tilts till 45 degrees in both directions, so even angled cuts are no problem. Your plinths will fit nicely. The lock-on button keeps you working without any interruption, so you don't lose time. The practical guide roller in turn, assures you very accurate straight lines. This comes in handy for delicate sawing jobs. The maximum cutting depth in steel equals 6mm and up to 45mm in wood. Connect the dust extraction adaptor to a vacuum cleaner for a working environment free of dust. A saw blade for wood and metal, as well as a hex key are included. The tool has a universal connection, so fixing another sawing blade goes effortlessly. A nice package for your needs!
